Children's Lifeline / Water for life International

Children's Lifeline has conducted clinical and surgical missions for thousands of children and their families worldwide for the past 29 years. In 2010 we helped over 6,000 children and launched 35 Medical Mission to over twenty countries —

one every ten days!

Monies raised at Day at the Races will help thousands of children and their families through joint missions combining Children's Lifeline medical interventions with Water for Life International installation of needed water treatment and purification units.

During our "Day at the Races Event", The John C. Macbee Handicap is taking place. This exciting handicap offers a purse of \$400,000. The winner of the 2010 race automatically qualifies for the Breeders' Cup filly & Mare Turf.

Cordially invite you to
"Day at the Races"
